Portfolio: <https://portfolioo-beta.vercel.app>

Professional Summary

Mobile Developer with hands-on experience delivering Flutter applications to production. Currently maintaining the MyTax mobile app (LHDN, Malaysia's official tax filing app) at Zen Computer Systems, supporting iOS, Android, and Huawei AppGallery builds. Background includes developing a mobile TOTP authenticator at Bestinet that improved authentication speed by 40%. Holds a Bachelor of Computer Science (Hons.) Netcentric Computing from UiTM. Skilled across the full mobile stack with a focus on clean UX, performance, and production reliability.

Technical Skills

Mobile (Primary)	Flutter, Dart, native iOS basics
Programming	JavaScript, C++, PHP, Python, Java, HTML/CSS, SQL
Tools	Git, GitHub, Postman, Android Studio, VS Code, Figma, npm, Gradle
Database	MySQL
Other	Machine Learning fundamentals (Python, scikit-learn, pandas, NLP)

Professional Experience

Zen Computer Systems Sdn Bhd — Solutions Developer (Mobile App Developer)

November 2025 – Present

- Maintain and enhance the MyTax mobile app for LHDN, Malaysia's official tax filing platform.
- Implement new features, fix bugs, and optimize performance across iOS, Android, and Huawei AppGallery builds.
- Collaborate with backend teams to ensure seamless API integration and data consistency.
- Contribute to UI/UX improvements for better user experience and accessibility.

Bestinet Sdn Bhd — Mobile Application Developer

June 2025 – November 2025

- Developed a mobile TOTP authenticator app using Flutter and REST API integration.
- Improved authentication speed by 40% through optimized API handling and caching.

- Designed and implemented secure user flows and token management.
- Collaborated with backend engineers to ensure robust and scalable integration.

KPJ Klang Specialist Hospital — IT Support Intern

September 2023 – December 2023

- Provided technical support for hospital systems and network infrastructure.
- Assisted in troubleshooting hardware and software issues.
- Supported system maintenance and documentation tasks.

Education

Universiti Teknologi MARA (UiTM) Shah Alam

Bachelor of Computer Science (Hons.) Netcentric Computing

October 2020 – December 2023

CGPA: 3.32

Projects

MyTax Mobile App (Production, Zen Computer Systems)

Flutter-based Malaysian tax filing app, live on App Store, Google Play, and Huawei AppGallery. Responsible for maintenance, bug fixes, and feature improvements.

GitHub: Proprietary client work (not public)

Mobile TOTP Authenticator (Production, Bestinet)

Flutter front-end with REST API integration for secure time-based authentication.

GitHub: Proprietary client work (not public)

Anti-theft Fingerprint Bag Lock (Final Year Project)

Arduino + C++ project integrating fingerprint scanner, GPS, and GSM modules for theft prevention.

GitHub: <https://github.com/Zariffdn/AntiTheftFingerprintBagLock>
