

ZARIFF DANIAL BIN ZUL AZHAR

Address: Klang, Selangor
Phone: 013-6123138
Email: zariffdanial1@gmail.com
LinkedIn: www.linkedin.com/in/zariffdanial

SUMMARY

Recent Computer Science graduate with practical experience in machine learning, deep learning, and software development through academic projects and hands-on training. Proficient in Python, SQL, Scikit-learn, Pandas, and web frameworks including Flask and Django. Experienced in building predictive models, automating data workflows, and developing full-stack applications. Successfully applied these skills to projects such as a movie genre classification model using NLP and an anti-theft fingerprint bag lock with GPS tracking. Eager to contribute technical expertise and problem-solving skills in a collaborative, data-driven environment.

WORK EXPERIENCE

Bestinet Sdn Bhd - Mobile App Developer June 2025 - Present

- Assigned to enhance login security by developing a mobile TOTP Authenticator app.
- Built front-end with Flutter and collaborated with backend team for smooth API integration.
- Optimized performance and resolved bugs to improve responsiveness.
- Improved authentication speed by 40% and user satisfaction by 25%.

Internship - IT Support(KPJ Klang) September 2023 - December 2023

- Supported hospital IT systems and staff to minimize downtime.
- Provided technical support, assisted in network maintenance, and trained staff on new software.
- Helped patients use hospital apps for easier service access.
- Reduced issue resolution time by 30% and boosted app usage by 40%.

EDUCATION

Universiti Teknologi Mara Shah Alam October 2020 - December 2023

Bachelor of Computer Science (Hons.) Netcentric Computing

- CGPA: 3.32

ADDITIONAL INFORMATION

Technical Skills

- Machine Learning** – Classification models, data preprocessing, NLP
- Programming** – Python, Java, C++, C#, PHP, JavaScript, HTML, CSS, SQL
- Database** – MySQL, Excel (data manipulation, queries, structures)

Soft Skills

- Leadership** – Managed ICT activities for SULAM events
- Problem Solving** – Designed innovative anti-theft bag lock system
- Communication** – Collaborated with teams during internship
- Time Management** – Balanced academics and co-curriculars
- Adaptability** – Quickly learned IT support skills in internship
- Teamwork** – Supported interns in resolving technical issues

LANGUAGE PROFICIENCY

- Bahasa Malaysia** – Native proficiency
- English** – Fluent (Speaking and Writing)

CERTIFICATES

Developing Mobile Apps with Flutter Specialization (IBM) July 2025

- Flutter, Dart, APIs, Publishing

Certified Information Systems Security Professional (CISSP), HRD Corp Jun 2025

- Information security, risk management, and cybersecurity principles

Data Science Analyst Bootcamp Programme (Peoplelogy) March 2024 - August 2024

- Python, ML, EDA, NLP

PROJECTS

Anti-theft Fingerprint Bag Lock

- Developing a classification model in Data Science bootcamp to accurately predict movie genres using textual analysis of plot descriptions (<https://github.com/zazarip/Movie-Genre-Classification>)

Movie Genre Prediction based on it's plot

- Anti-theft Fingerprint Bag Lock for final year project in degree. Conceptualized and developed an innovative anti-theft bag lock system using fingerprint recognition technology and GPS tracking for enhanced security of personal belongings. Designed to offer users a reliable and convenient solution to safeguard their valuables during travel (<https://github.com/Zariffdn/Anti-theft-fingerprint-baglock>)
