

Zariff Danial

Mobile Developer (Flutter and Dart)

Klang, Selangor, Malaysia · zariffdanial.zul@gmail.com · [linkedin.com/in/zariffdanial](https://www.linkedin.com/in/zariffdanial) · github.com/Zariffdn · portfolioo-beta.vercel.app

SUMMARY

Mobile developer shipping production Flutter apps to the App Store, Google Play and Huawei AppGallery. Sole mobile developer on MyTax, the official income tax filing app of Malaysia's Inland Revenue Board (LHDN), with 2.8 million lifetime installs across two Flutter codebases (GMS and HMS). Previously fixed and shipped a TOTP authentication feature at Bestinet. Bachelor of Computer Science (Hons.) in Netcentric Computing from UiTM.

EXPERIENCE

Solutions Developer (Mobile App Developer) Nov 2025 to Present

Zen Computer Systems, Cyberjaya, Selangor. Contract, on-site.

- Sole mobile developer for MyTax, LHDN's official tax filing app, live on the App Store, Google Play and Huawei AppGallery with 2.8M+ lifetime installs and roughly monthly releases.
- Own the mobile surface end to end: bug fixes, feature work, platform-specific adaptations, localisation and store submissions across iOS, Android and Huawei builds.
- Maintain a separate HMS codebase for Huawei devices, replacing Firebase Messaging and other Google-dependent plugins with Huawei Push Kit, and keep both codebases in sync on UX, API integration and localisation.
- Integrate new REST endpoints as the backend team ships them, keep Bahasa Malaysia and English strings aligned with the web platform, and release conservatively through the March and April filing peak.

Mobile Application Developer Jul 2025 to Nov 2025

Bestinet Sdn Bhd, Research and Development department, Cyberjaya, Selangor. Contract, hybrid.

- Took over a broken TOTP feature in an internal Flutter authenticator app and got one-time codes generating and displaying correctly.
- Traced the failure to two defects: a controller init routine never called from the view layer, and an invalid type cast on a secure-storage read that threw on already-enrolled devices.
- Hardened the generation path with error handling and early returns on failed device or secret-key lookups, so a missing key never produces a code.
- Built the authenticator screen in GetX to a supplied design (30-second countdown ring, digit-by-digit code, tap to copy) and applied the same branding to the app shell and login screen.

IT Support Intern Sep 2023 to Dec 2023

KPJ Klang Specialist Hospital, Klang, Selangor.

- Provided first-line technical support for hospital staff, workstations and internal systems, and supported staff adoption of the hospital's internal application across departments.

SELECTED PROJECTS

Silent Support React Native (Expo), TypeScript, Supabase, OpenAI API

Personal MVP: tap how you feel and get a calm response with breathing and grounding exercises; patterns are saved over time. Solo build with Supabase auth and storage. github.com/Zariffdn/Silent-Support-App

Anti-theft Fingerprint Bag Lock Arduino, C++, fingerprint sensor, GPS, GSM

Final year project. Unlocks with an enrolled fingerprint and texts the bag's GPS coordinates on unauthorised access. github.com/zazarip/Anti-theft-fingerprint-baglock

SKILLS

Mobile	Flutter, Dart, Provider, GetX, Firebase Messaging, Huawei HMS (Push Kit), REST APIs (Dio), flutter_secure_storage, biometric login (local_auth), push notifications, TOTP (RFC 6238), App Store, Google Play and AppGallery releases
Languages	Dart, JavaScript, TypeScript, Python, C++, PHP, Java, SQL, HTML, CSS
Web and data	React, React Native (Expo), Node.js, MySQL, Supabase, scikit-learn, pandas, NLP
Tools	Git, GitHub, Android Studio, VS Code, Postman, Figma, Gradle, npm
Spoken	Bahasa Malaysia (native), English (fluent, spoken and written)

EDUCATION

Bachelor of Computer Science (Hons.) Netcentric Computing Oct 2020 to Sep 2023

Universiti Teknologi MARA (UiTM), Shah Alam. CGPA 3.32.

Data Science Analyst Bootcamp Mar 2024 to Aug 2024

PEOPLElogy Group. Python, data wrangling, machine learning and NLP. Capstone: movie genre prediction from plot summaries (github.com/zazarip/Movie-Genre-Classification).
